

C Missouri Veterans History Project, Oral History Records, 2010-
4052 6.0 cubic feet

RESTRICTED

This collection is available at The State Historical Society of Missouri. If you would like more information, please contact us at shsresearch@umsystem.edu.

INTRODUCTION

The records of the Missouri Veterans History Project contain the local copy of veteran oral history interviews recorded for the Veterans History Project at the Library of Congress. The records include audio, video, interview logs, and some transcripts. The former Western Historical Manuscript Collection, a joint collection with the State Historical Society of Missouri, was a founding partner of the Veterans History Project in 2001.

DONOR INFORMATION

The records were deposited with the State Historical Society of Missouri by the interviewer, interviewee, or a volunteer beginning in February 2010. Additions are made as the project continues.

RESTRICTIONS

Copyright is retained by the veterans. Reproductions are for reference use only and cannot be published or reproduced in any form (including digital formats) without written permission from the Library of Congress Veterans History Project.

ORGANIZATIONAL SKETCH

The project was spearheaded by State Representative Jill Schupp (82nd District), who brought together a variety of people and organizations, including other representatives, individuals from the State Historical Society, University of Missouri, and a variety of veteran organizations to find an alternative and cheaper way to collect the histories of Missouri veterans after a previously funded state project was discontinued. Quickly after the project began, Midwest Litigation Services in St. Louis, Missouri, volunteered their videographers and transcriptionists services to assist with the project.

Before the Missouri Veterans History Project (MVHP) was officially formed, two pilot projects were conducted in Columbia, Missouri. The first was conducted in the spring semester of 2010 with graduate students from the classes of Dr. Elaine Lawless, University of Missouri Professor of English and Women Studies. At the time Lawless was the president of the American Folklore

Society and helped to connect the Missouri project to the Library of Congress Veterans History Project. The second project was conducted by, Mike Trial, a veteran and the local American Legion Historian.

SCOPE AND CONTENT NOTE

The Missouri Veteran History Project Records consist of oral history interviews on CD or DVDs, interview logs, and some transcripts. The interviews are arranged in the order in which they were received; the transcripts are arranged in the same order as the CDs and DVDs.

Because this is an ongoing project, the attached lists of recordings and transcripts might not be up-to-date. Consult the research staff for more information.

AUDIO AND VIDEO LIST

CD/DVD	Interviewee	Hometown	Date	Branch	War, Operation, Conflict
