Historical Note:

The Kansas City Neighborhood Alliance (KCNA) in a nonprofit organization founded by Kansas City business leaders in 1979. The KCNA was developed to create and maintain safe and attractive places to live through their mission of “strengthening the social, financial, and physical infrastructure of neighborhoods through programming, education, and housing opportunities.” KCNA often focuses on projects benefitting the low- to moderate-income families in the urban core, including neighborhood clean-ups, fundraising, and organizing crime patrols.

Arrangement:

The collection has been arranged into the following two series:

Reels
Scripts

Scope and Content Note:

Reels

This series consists of open reels of audio recordings conducted by Allen Simon for the Kansas City Neighborhood News radio show. The reels contain segments of news and updates regarding many Kansas City metropolitan neighborhoods from 1982 to 1992. Included in the collection are 75 unique recordings, along with duplicate recordings for some dates for a total of 96 reels. Tracks in the container list mirror the lists provided with each reel. Subject headings for neighborhoods that were clearly identified in the track listings have been included as index terms. Many of the terms are simplified versions of the neighborhoods as they appeared in the listings during the 1980s and 1990s and do not necessarily reflect current neighborhood names. The reels series has been arranged in chronological order.

Scripts

This series contains scripts for audio recordings of the Kansas City Neighborhood News radio show. Folders include track listings found with reels, as well as brief descriptions and notes for some dates. The series is not all-inclusive and has been arranged in chronological order.
